

**Version 2.1.20**

Released 01-03-17

- Corrects an issue that could result in the light meter values not displaying periodically
- Improves handling of offline data upload
- Improves "False positive" error trapping on "out of water alert"
- Includes update to interface with [seneye LDE](#)

## Reported problems &amp; solutions:

- Seneye shows up as a removable disk -
  1. Disconnect the SUD
  2. Please ensure that you have fully updated windows
  3. Restart the SCA
  4. Reconnect the SUD
